

Client is a worldwide multibillion dollar manufacturer.

Manager of Procurement

Responsible for the acquisition of outsourced products. This is a senior position, managing a 9 person staff and a \$60M budget.

Major duties include planning the overall acquisition strategy; generating/implementing source selection plans, developing/coordinating RFI/RFP Statements of Work and Technical Specification requirements, negotiations and source selection of major suppliers; managing and controlling outsourced activities to assure performance against customer requirements, schedules and financial goals. Working through a matrix organization, the team is responsible for buying all the parts for both Defense and Commercial products.

REQUIREMENTS:

- **Must have** Aerospace, Government, FAA and/or Defense industry experience
- Successful application of Program Management skills on significant development programs
- 12+years of Program Management, Proven expertise in complex supply management or supply chain management activities and Sound practical engineering skills
- BS degree
- Working knowledge of Federal Acquisition Regulations and procurement processes
- 10% travel domestically and internationally as required
- US Citizenship required

Compensation: into the low 100's for base

Location: can be in MA or NH or NJ depending on selected candidate's preferences
