VP OF OPERATIONS

THE COMPANY

This well established, profitable company has been able to maintain their premiere market position for decades. They continue to be a formidable competitor in their market place.

THE POSITION

This VP will be a key member of the executive team and help chart the course of this company. This operations executive will be responsible for the development and implementation of strategies to achieve competitive advantage and operational excellence through more efficient manufacturing including supply chain optimization and NPI management.

Direct reports consist of Production, Supply Chain, and Continuous Improvement. The operations team currently consists of 150+ employees.

1. Develop and manage processes, operations, facility and staff to meet company performance objectives for quality, on-time delivery and costs.
2. Reduce operational costs and improve gross margins.
3. Improve production efficiency and utilization.
4. Establish short and long term strategies and group goals.
5. Develop best in class supply chain organization
6. Prepare operating budgets and plans.
7. Provide development opportunities, performance management processes and a team-oriented environment for managers and staff

TO BE CONSIDERED

The successful candidate will have had a record of proven success in managing LEAN manufacturing operations:

- BS degree is mandatory; advanced technical or business degrees are desirable
- 7+ years directly managing ALL the operations disciplines: production, supply chain, international procurement, vendor management, manufacturing engineering, NPI and logistics
- Automation, Mechanical and Machine Shop manufacturing management experience
- Track record of customer orientation; Process driven, fact based, focus on continuous improvement, results oriented
- Significant Materials management experience including international supply chain management expertise
- Successful leader that employs a hands-on, team player, engaged management style. Leads by example: a drive for results mindset and a LEAN advocate
- Broad, extensive and comprehensive experience in managing external vendors and contract manufacturers

COMPENSATION

This is an exciting opportunity for a proven and broad based operations executive with the right transferable experience to join a well positioned company. The Company will offer a competitive salary and bonus potential.

LOCATION

Southern MA.128 / 93 MA area. Local candidate preferred.
